EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 4 has been amended to delete "one of" on line 2.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The dyes of formulae 1,2 and 3 are known dyes as disclosed in the specification. Dyestuff 1 suffers from high temperature dependence; dyestuff 2 suffers from low lightfastness. In Table 1, Applicant has shown improvements in both features when dyestuffs one and two are combined in the claimed range and optionally dyestuff three is added, and the combination is used to dye polyester.

Comparative Example 1 shows that when dyestuff 1 is used alone it has a high temperature dependence in the range of 120° C to 130° C. That is shown by the fact that the density of the dyed material obtained at 120° was only 50% of the density when dyed at 130°. In all of the examples of mixtures within the claimed range, the percent dyed at 120° was between 75% and 85% of the density of the material dyed at 130°.

Art Unit: 1751

Comparative example 2 shows that dye 2 suffers from low lightfastness (3-4). When combined with dyestuff 1 in the claimed amounts, the lightfastness improved to at least 4 over the entire claimed range, and 4-5 for the preferred range. Example 4 shows that the improvements in lightfastness and temperature dependence remain when the mixture of dyestuffs 1 and 2 within the claimed range are further mixed with the dye of formula 3.

For these reasons, any prima facie case of obviousness which might have been applied has been overcome.

The mixture of dyestuffs as claimed is both novel and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
